

Sustainable Dyeing

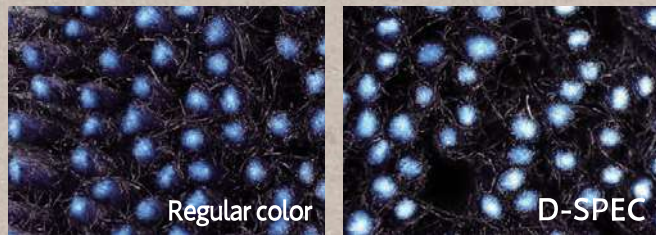

D-SPEC evolved towards "Sustainable Denim"

What is the "D-SPEC"?

D-SPEC is Kaihara original Dyeing technology that the character is Dark color and Big white core. it's also less color off/ color contamination, and contributes to reducing of washing time in garments and wastewater treatment load.

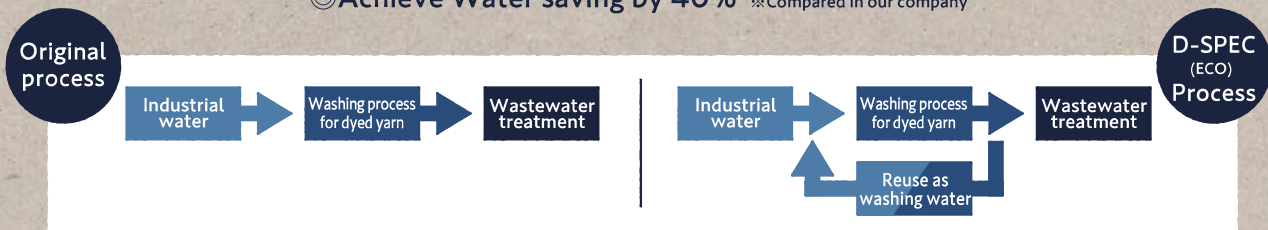

White core comparison

D-SPEC(ECO) Evolution Points

©Achieve Water saving by 40% ※Compared in our company

© Analyzed washing conditions(Squeezing, Temperature, Time, etc), and Optimized for cotton yarn. That's how ,the water-washing efficiency is maximized and the use of chemicals is reduced by 50%.
